Summary

Aspiring SOC Analyst with hands-on experience in security monitoring, network traffic analysis, SIEM, vulnerability assessment, and cybercrime investigations. Skilled in Splunk, Wireshark, Burp Suite, Nmap, and Linux with practical experience analyzing security events, investigating suspicious activity, and documenting findings. Passionate about threat detection, incident response, and continuous learning.

Education

VIT Bhopal University

Bachelor of Technology - Computer Science Engineering

CGPA: 8.43

Bhopal, India

Sep 2023 – May 2027

Internship Experience

Cyber Crime Intern — Police Headquarters Rajasthan

June 2026 – July 2026

- Investigated cybercrime complaints and analyzed fraud trends using structured datasets.
- Conducted OSINT investigations to support cybercrime analysis.
- Researched phishing, UPI fraud, cryptocurrency fraud, and social engineering techniques.
- Documented findings and prepared technical reports supporting cybercrime investigations.

Cybersecurity Intern — Shadowfox (Remote)

May 2025 – June 2025

- Conducted network reconnaissance using Nmap, identifying multiple open ports and hidden directories
- Analyzed packet captures to detect plaintext credential exposure and potential security risks
- Documented penetration testing processes and recommended mitigation strategies for identified risks

Projects

SIEM Log Monitoring Lab

- Built a SIEM lab using Splunk for security monitoring, log collection, and event analysis
- Monitored Windows authentication logs to identify failed logins, suspicious activity, and brute-force attempts
- Created dashboards and alerts for efficient detection of security events

Network Traffic Analysis System

- Analyzed network traffic using Wireshark to identify suspicious packets, anomalies, and intrusion attempts
- Investigated attack patterns and abnormal packet behavior to improve threat detection capabilities
- Developed a structured workflow for packet analysis and basic incident investigation processes

Skills

Languages: Python, SQL, JavaScript, HTML5

Technologies & Tools: Windows, Linux, Git, Splunk, Wireshark, Burp Suite, Nmap

Core Concepts: Networking Fundamentals, SIEM Fundamentals, Network Traffic Analysis, Log Analysis, Incident Response, OWASP Top 10

Certifications

Google Cybersecurity Professional Certificate

Google IT Support Professional Certificate
