Summary

Aspiring SOC Analyst with hands-on experience in network traffic analysis, vulnerability assessment, and web application security testing. Skilled in identifying security threats, analyzing suspicious activity, and working with tools like Wireshark, Burp Suite, and Nmap. Passionate about threat detection, incident response, and strengthening organizational security posture.

Education

VIT Bhopal University

Bachelor of Technology - Computer Science Engineering

CGPA: 8.43

Bhopal, India

Sep 2023 – May 2027

Internship Experience

Cybersecurity Intern — The Red Users (Remote)

April 2025 – May 2025

- Identified and analyzed 10+ web vulnerabilities (SQLi, XSS, CSRF) using OWASP ZAP, improving application security posture
- Monitored and analyzed network traffic using Wireshark, enhancing detection of suspicious activities in a virtual lab
- Documented security findings and proposed remediation strategies, reducing potential risk exposure

Cybersecurity Intern — Shadowfox (Remote)

May 2025 – June 2025

- Conducted network reconnaissance using Nmap, identifying multiple open ports and hidden directories
- Analyzed packet captures to detect plaintext credential exposure and potential security risks
- Documented penetration testing processes and recommended mitigation strategies for identified risks

Projects

SIEM Log Monitoring Lab

- Built a basic SOC monitoring lab using Splunk for log collection and security event analysis
- Monitored authentication logs to detect failed login attempts and suspicious activities
- Created dashboards and alerts to improve visibility into security events and incident response workflows

Network Traffic Analysis System

- Analyzed network traffic using Wireshark to identify suspicious packets, anomalies, and intrusion attempts
- Investigated attack patterns and abnormal packet behavior to improve threat detection capabilities
- Developed a structured workflow for packet analysis and basic incident investigation processes

Skills

Languages: Python, SQL, JavaScript, HTML5

Technologies & Tools: Git, Linux, Wireshark, Burp Suite, Nmap, Splunk

Security Concepts: Network Traffic Analysis, Vulnerability Management, Incident Response, OWASP Top 10, Risk Assessment, SIEM Fundamentals

Certifications

Google Cybersecurity Certificate (2025)

Google IT Support Professional Certificate (2025)
